

Powerpacks

HALO makes it a priority to supply our youth with items they need for everyday use—snacks, hygiene products, clothes, things that someone experiencing homelessness would struggle to find enough of. We address this problem by providing every new youth that comes to a workshop with a PowerPack, a backpack filled with these sorts of essentials. PowerPacks allow our kids to have necessary items of their own no matter where they go, and once a child has received a PowerPack, they can bring them back to us if they run out of any of these essentials. For this volunteer impact project, you will be putting together PowerPacks for either HALO youth or for any local youth shelter near you. You'll need to collect a variety from the list below and spend some time putting together some PowerPacks (in Ziplock baggies or drawstring bags) with your ClubHALO Chapter. We humbly ask that each donation made is new.
