

HOW TO: FRIENDSHIP BRACELET

Material: Beads & stretchy string

- Step 1:** Cut string to size you need. Make sure you cut enough string to tie a knot at the end.
- Step 2:** Tape down one end of the string and start threading beads how you want.
- Step 3:** Once done, tie 3-4 knots to secure the bracelet, pulling on the string after each knot. Trim the ends, and you're done!

COMPASSIONATE CONVERSATIONS

- Have you ever had to make or fix something you own with your hands?
- What piece of clothing or accessory do you treasure and why?
- When you feel alone, who is someone you think of that you know loves you?
- When was a time you started something new and how did that make you feel?
